

Sevendyne Staffs Service Proposal

Augmented Talent for Your Tech Needs

1. Overview

Sevendyne's Staffs service provides flexible team augmentation, from solo developers to enterprise-grade squads. Whether you need a quick hire or a dedicated team, we deliver skilled resources to fuel your projects.

2. Service Models

Pick the model that suits your staffing needs:

Model	Best For	Scope	Pricing Model
Solo	Quick hires	1 resource, short-term	₹15,000 base + ₹15,000/resource
Squad	Project teams	3-5 resources, 6+ months	Base + ₹12,000/resource (bulk)
Army	Enterprise leasing	10+ dedicated roles	Custom (₹1,00,000+/month)

3. Scaling Path

Expand your team as needed:

- **Solo:** Start with 1 resource at ₹30,000/month. Add resources at ₹15,000 each.
- **Squad:** Scale to 3-5 resources at ₹12,000/resource/month.
- **Army:** Custom leasing for 10+ roles.

Example:

Solo QA resource at ₹30,000/month. Need a dev team? Upgrade to Squad (4 resources @ ₹48,000/month).

4. Sample Client Plan: Staffs-Only (IT Company)

Services: Squad Tier

Pricing:

- **Base Fee:** ₹15,000/month
 - **4 Developers:** ₹48,000/month (₹12,000/resource)
 - **Growth Premium:** +15% fee if client revenue increases by 20%
-

5. Scaling Mechanisms

We grow your team with your business:

Trigger	Staffs Action
Client revenue ↑ 20%	Apply 15% growth premium
User base ↑ 10,000	Add 2 support staff (₹12,000 each)
New market entry	Hire local expert (custom)

6. Operational Details

- **Unified Contract:** Single SOW with modular pricing for Staffs services.
 - **Cross-Service Credits:** 10% discount on Apps services for Staffs clients.
 - **Scalability Flags:** Clear terms, e.g., “Squad includes 3-5 resources. Additional resources: ₹12,000 each.”
 - **Exit Path:** Convert leased team to Apps project ownership (10% fee reduction).
-

7. Why Sevendyne?

- **Flexible Hiring:** From 1 resource to entire teams.
- **Cost-Effective:** Bulk discounts for Squad and Army models.
- **Growth-Aligned:** Premiums tied to your success.

Next Steps:

1. Identify your staffing needs (e.g., developers, QA).
2. Select a model (Solo, Squad, or Army).
3. Reach out to build your team.
